Dear Joanna,

We wanted to let you know that we are very pleased with the quality of work performed by your crew. From tear-off to clean-up, the attention to detail was remarkable.

We realize that our house was a difficult job, due to the roof-to-stucco wall sections. We really appreciate the care that was taken during the tear-off, preventing further damage to the stucco.

We will definitely recommend Perfect Roofing to others. Please feel free to add our names to your list of references.

Thank you again!
