Dear Joanna:

I just wanted to let you know how extremely pleased I was with the job that your crew did replacing my roof. The crew was very professional and efficient. A number of years ago when I had a new roof installed, I was picking up roofing nails for weeks afterwards that the installers failed to pick up. When your crew completed their job I only found one nail, which I located in an out of the way area. Feel free to use my letter as highly recommending your company for the outstanding and very reasonable job that they did.
